Soldiers of the Soil Movement Forms Organization Here

C. D. McKinnon, who is working under the Canada Food Board, was in town this week for the purpose of organizing this district to help into getting a greater production and to help solve the labor problem. After putting before a meeting of the men here, the aims and objects of the movement and local committee was formed with W. J. Hall president, and W. M. Colter, secretary. The purpose of the movement call (Continued on page 8)

Things We Have Been Told

Mrs Thornton received word to-day that her brother had paid the supreme sacrifice and given his life for his country. After being on the Ypres front for twelve months, he was granted two weeks furlough returning on March 12th, he was sent to Bray, where the Germans started their big offense, and was wounded on March 27th and died the next day. Gunner Parkinson leaves a wife and three children.

Several new settlers are coming into this district. With the crop prospects that we have this season there is every reason to believe that this district is to grow this year.

Mr. Kurtz has just located on land south of town and is taking out considerable lumber from the Atlas yard for his buildings.

Several lots are being plowed up in town. This will help the greater production campaign.

D. A. Litch is putting a big crop for L. P. Strong, of Calgary.

Mr and Mrs Stuart were visitors to Calgary this week.

Dr. Nimmons, of Calgary, spent the week end in town.

Word was received here on Monday from Mr Hall, that his sister-in-law, Mrs Ingalls, had died on Saturday at 8:30 p.m. Miss Ingalls, who left last week for home, would not have reached there before her mother's death.

The Rochester Underwriters Agency, of Rochester, N. Y., has appointed Mr McPhail, of Alderson, as their representative for taking Hall Insurance Risks. As this is one of the strongest financial companies in America, they are in a position to give the best service to interested farmers. Mr McPhail will be located at the Finlay Co.'s office.

Don't forget to hear Mrs. Wages speak up the work of the Red Cross on Friday May 3rd. This lady has been "over there," and will know what is doing. A few musical items is being arranged for.

One of the most successful events of the season was held last Friday evening in the Masquerade Dance, invitations to which were given out by Dr. and Mrs. R. Nimmons, Mr. and Mrs. F. L. Brown, Mr. and Mrs. A. Cole, Mr. and Mrs. W. M. Hutchison, Mr. and Mrs. G. M. Thompson, Mr. and Mrs. B. H. Thornton and Mr. W. J. Hall. T. guests present numbered over sixty all prepared to have a good time. The music was superb: Dr. Nimmons, violin; and Miss Earl, of Calgary, the pianist, was everything that could have been desired. Many fine costumes were displayed of which Miss Ethel Dixon, as the Morning Star and Mr. O. J. Wood, as a British Admiral, were awarded the prizes by the judges as the best. The costumes of Mrs. Reenders, a milkmaid; and Mrs. F. Daisell, as Miss Canada, are well worth mentioning, while Mr. A. J. Drummond was the bad man in the wild and woolly even to the shooting irons, and Mr. F. Shields might have been taken for Uncle Sam himself. The costumes of the hosts and hostesses were: Mrs. Brown, Dutch girl; Mrs. Nimmons and Mrs. Thompson, Japanese girls; Mrs. Hutchison, Maid Marion; Mrs. Thornton, Martha Washington, Mrs. Cole, Britannia; Mr. Hutchison, Highland costume; Mr. Thompson as a member of the Klu Klux Klan, Mr. Thornton, as Magistrate and Mr. Holt as a Delinquent. A dainty lunch was served with ice cream during the evening.

M. W. (Pete) Bailey, who is well known here, has joined the Royal Flying corps.

Harry W. Johnson, Agent for the Smith-Form-A-Tractor, for Ford Cars, is very well pleased with the way it performs. He has been pulling heavy engines, gang plow 14 inch bottoms, also has accomplished considerable digging and harrowing with the outfit. "All you got to do," says Harry, "is to put some oil in her, and throw her into high and the little old Ford handles right along." Another good feature is, if it gets hot you can put up the top to protect your tender skin from the sun and if the mosquitoes get thick put up some mosquito netting around the outside and you can ride in comfort while the hired man sweats the fly, and if perchance you get thirsty, you can put some bottles of pop and a pail of ice under the back seat; if you are a bachelor you can take your girl out for a play ride."

Vast Issues Depend Upon the Welfare of Our Men!

Cheer Up and Thank God for the Y.M.C.A.

TRY to picture yourself in the muddy cold trenches after exciting days and long nights of mortal danger and intense nervous strain. Rushing "whiz-bang" and screaming "coal boxes" are no respecters of persons. You are hit! But despite shock and pain you still can face the long weary trudge back to dressing station. Weary, overwrought and depressed, you are prey to wild imaginings of that other coming ordeal with the surgeon. There are other "walking wounded," too! You must wait, wait, wait. And then—

Up comes a cheery Y.M.C.A. man, the ever-present "big brother" to the soldier, with words of manly encouragement. Close beside the dressing station the good generous folks at home have enabled him to set up a canteen. He hands you biscuits, and chocolate or coffee.

Canada-Wide Appeal

"In thousands of cases," writes an officer, "it was that first hot cup of coffee that dragged the man back to life and sanity." The tremendous helpfulness of the Y.M.C.A. as an aid to the "morale," or fighting spirit, of the soldiers is everywhere praised. No wonder the Germans make every effort to smash the Y.M.C.A. huts out of existence.

The Y.M.C.A. is everywhere. You first met the helpful, many Y.M.C.A. worker in camp, then on train and boat, at camp in England and in France, close to the firing line. Often he risks his life to reach you in the trenches. He has won the warmest praise from military authorities, statesmen—the King! Have you a precious boy at the front? You cannot be "over there" to guide him away from fierce temptations of camp and city. You cannot comfort him in his supreme hour of trial. Your parcels to him are necessarily few. But the Y.M.C.A., thank God, is "over there," going where you cannot go—doing the very things you long to do—doing it for you and for him. Will you help? This vast organization of helpfulness needs at least \$2,250.00 from Canada for 1918. For your boy's sake be GENEROUS!

War Work Summary

- There are:
- 46 branches of Canadian Y.M.C.A. in France.
 - 70 branches in England.
 - Donors of Y.M.C.A. dug-outs in forward trenches under fire.
 - Over 120 Military Sanatoriums over 300,000 letters a day written in Y.M.C.A. overseas buildings.
 - \$13,000 needed for athletic equipment (Hides morale of soldiers).
 - Y.M.C.A. saved hundreds of lives at Vimy Ridge by carrying for walking wounded.
 - Over 100 planes in England and France, also 300 gramophones and 27 moving picture machines.
 - Y.M.C.A. helps boys in hospitals.
 - More than 60,000 cups of hot tea and coffee distributed daily in France—free. Estimated cost for 8 months, \$48,000.
 - Over 100,000 letters estimated sent every month. (Estimated cost \$15,000).
 - \$125,000 used in 1917 to build huts in France.
 - Sports, singing, good-night services and personal interviews energetically conducted.
 - Cost \$8,000 a month. Thousands of soldiers decide for the better life.
 - Y.M.C.A. sells many useful things to soldiers for their convenience. Profits, if any, all spent for benefit of soldiers.
 - Service to boys in Camp hospitals.
 - Red Triangle Clubs for soldiers in Toronto, St. John and Montreal, Centre in Paris and London for men on leave.
 - Out of Red Triangle Fund, \$15,000 has been contributed to the War Work of the Y.M.C.A.

It has been made clear now that Germany is the enemy of the Russian revolution, and that the only hope of Slav freedom is in the overthrow of the German yoke from the beginning by the vast majority of the Russian people. It was denied by the Lenines and Trotskys; who were the enemies of the German people, between German imperialism and allied imperialism. They see that difference today. It is the bitter distinction between a social theory and German imperialism. The German Bolsheviki are aware of the difference between the "capitalist" nations of England and Germany, and the "proletarian" nations of the Soviets by the hundreds. From the New York Tribune.

In no line of agricultural work in Canada is there a greater opportunity to increase production than there is in the improvement of dairy herds. The average yield of milk per cow in Canada is only about 4,300 pounds per annum. Compared with individual records of over 25,000 pounds of milk in a year and herd records averaging over 10,000 pounds for each cow, the great possibilities for improvement are at once apparent.

The keeping of herd records, commonly known as "cow testing," is the safest and surest basis for the intelligent breeding and selection which, with proper feeding, results in an improvement in production that makes the difference between the general average yield and those which are at the top.

French plan to begin the war by voting credits for the war amounting to more than \$20,000,000. Of these \$20,000,000, only \$2,000,000 have been borrowed from foreign countries. The whole difference was drawn on the savings of the French themselves. The whole balance was described by loans to be paid by taxes. Besides that, France has been able to loan \$1,000,000 to her allies, and to give them 2,500 guns and 5,000 airplanes.

And today on the western front the French army is still holding two-thirds of the whole line. At the beginning of the present war 82 German divisions were facing the French army. As Mr. Lauzanne points out, to need 82 German divisions in order to hold an exhausted army is, indeed, out of proportion.

Buy an Irrigated Farm FROM THE CANADIAN PACIFIC RAILWAY

BECAUSE:

Irrigation makes the farmer independent of rainfall, and insures good crops, not occasionally, but every year.

Irrigation makes possible the successful culture of alfalfa, the king of fodder, which insures good returns in dairying and mixed farming.

Irrigation means an intensive farming and a close settlement with all the advantages of a densely populated agricultural community.

Irrigation in the Canadian Pacific Railway Irrigation Block is no longer an experiment, the years that it has been tried having abundantly demonstrated its success wherever intelligently applied.

This is the most liberal offer of Irrigated Farm Land on record.

A town the size of Alderson can feel complimented to think that a troupe of their ability and talent would give performance here. They were not given a packed house by any means, but this was due, no doubt, that some reports were circulated about town that the show was not very good and was mixed up with a poor show that was put on in Jenner last year. This troupe had not been to Jenner. From playing in Medicine Hat they stopped off here on their way to Calgary, where they play all this week. They offered the Red Cross \$2.00 but on account of the poor attendance and knowing that they would not cover expenses, we took only \$1.00, and they consented to return here in the fall. They gave a free dance after the concert and it was considered by all to be the best western dance music ever played here.

Notice to Teen Age Boys Throughout Alberta

Attention! Present arms, to the farmers of Alberta in their campaign for greater production this year. Line up with the Soldiers of the Soil, earn good money, work up a good muscle, get a summer's agricultural experience for nothing and a S.O.S. badge of honor in recognition of the national service you have done. What more could you ask? The Empire needs you!

The Kaiser of Germany has expressed himself that his greatest hope for victory is in the starvation of Britain through the submarine. His chances seem good at times and unless we can speed up our production here in Canada, he may realize his dreams. France, England and Italy in peace time did not depend upon America, but on Russia, Rumania and Bulgaria for most of their necessities. With these sources closed the crisis of the hour demands that we see that our soldiers and the motherland are fed. If the motherland is compelled to surrender through hunger, Canada's soil will have died in vain. Food authorities are trying to tell us that this is a very grave danger of our whole civil and military system becoming paralyzed unless Canada raises a big crop this year. Owing to Canada's geographical situation, her nearness to the seat of demand, food buyers can buy our foodstuffs and lay them down where they are most needed for about twenty-five per cent of what they can do the same for from other countries. Therefore, boys, you are urged to give your service to the Empire in this way this year. The most of our man-power is in Plandemia. The farms must depend on the boy power of the country. If they cannot get it they will have to appeal to the girls.

Everything reasonable is being done to safeguard the boy's best interests. The whole country is being organized to care for you. You will be met at trains if you go away from home and wherever you go you will have a bunch of big brothers to see to it that you get a square deal. You will be visited by officers of the S.O.S. through the summer and nothing that is reasonable and right will be denied you. So, fellows, line up! Hunt up the secretary of the S.O.S. local committee in your nearest town and fill in the enlistment form. Don't forget to get permission from your parents and your teacher. Parents, boys as well as town boys are urged to enlist as they can only give the S.O.S. badge of honor to the enlisted soldiers. Boys 15 and 16 can only enlist in their father's or a relative's farm. Boys over 15 to 18 may enlist at any place in the district unless they specify where they want to go.

Let me meet you on the farm this summer, boys.

Yours truly,
C. B. MCKINNON,
S.O.S. one Supervisor, Lethbridge

Notice to Farmers.
Mr. Farmer, are you aware that in Canada 25,000 older boys, from 15 to 19 years of age, are being enlisted and organized under the direction of the Canadian Food Board to do the farm work to their bit and help you in the campaign for greater production. Already in the provinces of Alberta there are several hundred of these available; many of them are already on the land. These boys vary in ability and experience but are determined to make good if given a fair chance. With the man-power of our country greatly depleted owing to heavy recruiting for overseas service these boys should be of great service to the farmer. In fact as the situation looks today you may want to depend on boy power or nothing.

If you need the help of one or more of these boys hunt up the S.O.S. secretary in your nearest town and make application for what you want. A writ is drawn to S.O.S. supervisor C. B. McKinnon, Union Bank Building, Lethbridge.

Many of these boys are available now and will be until the grain is marketed in the fall. A large army of them will be let loose when the school term closes, so make application early so as to secure what you want.

Yours truly,
C. B. MCKINNON,
S.O.S. Zone Supervisor, Lethbridge

The Ford Saves the Hay and Oats the Horses Eat

IT HAS been estimated that five acres of land are required to maintain one horse for a year, and that the same five acres would produce nearly enough food for two people. If 60,000 Canadian farmers each replaced one horse with a Ford, 250,000 acres would be added to the Nation's source of food supply and enough extra food made available to feed 100,000 people.

Just think what a great service this means to the country at the present time and the benefit to the farmers from the sale of food produced on this acreage.

A Ford car also saves the farmer a week or more of valuable time each year, which can be used for further productive work. The Ford travels three times as fast as a horse and rig—costs less to run and keeps, and is far easier to take care of. With labor so scarce and high priced, time means money, so do not delay in getting your Ford.

Notice to Parents!

Undoubtedly your boy of 'teen age has come home to you from school requesting your permission to allow him to enlist in the "Soldiers of the Soil" movement. You would be a strange parent if you did not exhibit some uneasiness in the prospect of letting your boy go away from home into strange places not knowing the kind of farmer he may have to work for, or the care he may receive. For your personal comfort let me just say a word. Canadian boys are never more valuable than they are today. While the need is urgent now for help on the farms owing to our man-power being depleted for overseas service it would be disastrous to raise the army of boys unless we can be assured that their highest interests will be safeguarded and that as a result of their experience on the farms they will be stronger and better citizens. The Canada Food Board, realizing that it was not expert in the management of boys, has turned the superintending of this movement over to the Y.M.C.A. This institution has made elaborate preparations for the safeguarding of the boys. There are four experienced supervisors in this province and an expert general supervisor. Each of the four supervisors has the oversight of all the boys that will be at work on the farms in his particular zone. In addition, in every town, city or village there will be organized S.O.S. local committees, who will assist the zone supervisor in safeguarding the boys, seeing that they are met at the trains and sent to their employer, that they get into nothing but homes where they will be properly fed, where favorable living conditions exist and no over-work. These local committees have likewise pledged themselves to try to impress the farmer to do so. At the same time, to educate the boys in the arts of farming, anticipating that the labor problem will be even more serious in the future than it is today.

So, parents, you can be assured that your boy's best interest is being safeguarded in this movement.
